

***Cleaning and irrigating is important if you are more than _____ hours from hospital.**

***Unroll bandaging like a wheel against the skin**

***Remember to anchor the beginning of the bandage and if possible, anchor the dressing as you wrap**

***The book does not recommend elastic bandages for bandaging!
(p519)**

***Use moist dressings for lacerations of the eye**

***If you use vet wrap, I heard it has latex in it so be careful of latex allergies!**

***Splinting may help keep a laceration from re-opening**
